

CHRISTCHURCH MEDICAL PRACTICE

Further to the patient events about the merger of Burton & Bransgore with Orchard, Drs Richard Jenkinson and Jo White are also very pleased to advise that in the last week they have agreed that Barn Surgery will also join the merger, still planned to take place by 1 October 2017.

The inclusion of the Barn practice means that there will be even greater capacity for the merged practice to create plans that will improve the sustainability of all the practices. With a larger number and more variety of highly skilled staff, patient needs will be served more efficiently and effectively in safe, familiar environments.

We would like to reassure patients that services will continue in all current sites and we will shortly be holding some patient events where they are able to find out more.

Drs Jenkinson & White, on behalf of Burton and Bransgore and Orchard Partners.
